PROFESSIONAL SUMMARY

Civil Engineer with experience in site operations, quantity takeoffs, and cost estimation for residential, commercial and civil projects. Skilled in preparing BOQ, tender documentation, and construction drawings. Provides accurate estimates and reliable remote support to contractors and project teams.

WORK EXPERIENCE

Remote Construction Estimator
Freelance **August 2026 - Present**

- Delivered accurate takeoffs and BOQs across landscaping, Irrigation, painting/coatings, and civil works, supporting faster and more competitive bids.
- Converted construction and engineering plans into reliable material quantities for turf, pavers, retaining walls, irrigation systems, finishes, earthworks, excavation, cut/fill, and utility trenching, giving the estimating team clearer cost inputs for tender pricing.
- Developed itemized cost breakdowns with practical waste allowances, reducing material shortages and unexpected cost variations.
- Streamlined digital takeoff workflows to improve turnaround time while maintaining line-item accuracy.
- Maximize bid capacity and hit demanding submission targets by actively managing invitation-to-bid pipelines in SmartBid and BuildingConnected, turning around accurate cost estimates on tight deadlines.

Administrative Assistant VI (Civil Engineer)
Bureau of Immigration, Philippines **May 2023 – August 2026**

- Managed project documentation to ensure compliance and support efficient project tracking and reporting.
- Conducted site inspections to ensure quality and safety standards.
- Coordinated with contractors and project teams to monitor progress and resolve issues.
- Reviewed contractor testing and reports for compliance with specifications.
- Prepared DUPA and TOR to support tender and bidding processes (Approved Budget up to Php 120,000,000).
- Conducted technical evaluation of bidders and project planning activities.

Engineer I - Planning and Design
DPWH Cavite 3rd DEO **February 2023 – May 2023**

- Prepared architectural and plumbing design concepts including POW and ABC.
- Developed detailed engineering drawings and construction documentation.
- Produced BOQ for cost estimation and tender requirements (Approved Budget up to Php 7,000,000).
- Conducted site validation and coordinated with clients to identify project scope.
- Maintained organized project records and supported timely coordination to keep project activities on track.

Take-off Engineer
Callmax Solutions Inc (Remote) **May 2021 – July 2021**

- Performed quantity takeoffs for finishing materials to support cost estimation.
- Reviewed estimates for accuracy and quality control.
- Prepared reports and coordinated with team leader/senior estimator remotely.

SKILLS AND CAPABILITIES

Quantity Takeoff & Measurement | Cost Estimation & Pricing | BOQ Preparation | Tender & Bid Support | Construction Documentation | Project Coordination | Project Monitoring | Quality Control | Document Control | Deadline & Task Management | Stakeholder Communication

TECHNICAL TOOLS

Bluebeam Revu | PlanSwift | Quickbooks | Smartbid | Buildingconnected | Microsoft Excel & Office Suite | Slack | AutoCAD | SketchUp | Enscape

EDUCATION AND LICENSES

Bachelor of Science in Civil Engineering
De La Salle University - Dasmariñas City, Cavite, Philippines *Year Graduated:* **2020**

Professional Civil Engineer
Professional Regulation Commission, Philippines *Year Acquired:* **2022**

CERTIFICATIONS

Virtual Assistant Training
